Sawyer Filters Donation
Water Charity - Camino Seguro

February, 2014

Early in February 2014, Safe Passage received a donation of 50 Sawyer PointONE Water Filters from Water Charity. The filters were granted to 50 families of children enrolled in Safe Passage programs. The department of Social Services helped identify those 50 families who were in biggest need and/or had babies and little children.

On February 27th, the 50 families received a training at Safe Passage facilities about the proper use and maintenance of the filters they were about to receive. Enrique Diaz, from *Cosas Mejores*, provided the training to the families. He also highlighted the benefits and the importance of having clean water at home through these filters.

On the day of the training, the families received one filter each. Each representative of the family signed a waiver taking responsibility of the proper use and maintenance of the filter. Safe Passage's Social Services department will follow-up and ensure the families are using this donation properly.

The beneficiaries from this donation showed a high level of interest in the benefits of using these filters. The families were very grateful for receiving them. They learned that by consuming filtered water, the risk of diseases such as diarrhea, cholera, etc. will be reduced.

Thanks to Water Charity for partnering with Safe Passage to help provide a better quality of life for families from zones 3 and 7 through these filters.
